

Illicit Drugs Control (Drug Testing Kit) (Amendment) Regulations 2024

It has become apparent that the use of illicit drugs in Nauru is on the rise. The Police are taking every possible step possible to address this issue. These steps include prescribing another type of drug testing kit under the *Illicit Drugs Control Act 2004*, through the *Illicit Drugs Control (Drug Testing Kit) Regulations 2024* called TruNarc Handheld Narcotics Analyzer (“TruNarc”). The TruNarc delivers fast and accurate narcotics analysis. With the TruNarc kit now prescribed in law, the Nauru Police Force has an added tool to combat illicit use of drugs.
